

Task 4.2.3: Share experiences on N footprints as a means of developing public awareness

Expand country-specific nitrogen education and outreach by launching online N-Calculators for **Brazil, Denmark, Portugal, Ukraine**

Task 4.2.3: Share experiences on N footprints as a means of developing public awareness

Key Personnel

- James Galloway, Allison Leach, Morten Graversgaard, Camille Nolasko, Claudia Cordovil, Soraia Cruz, Joana Marinheir, Sergiy Medinets, Steve Johnson

Progress to Date

- Several virtual workshops of research team
- One-on-on meetings between tool developers (Leach & Johnson) and in-country leaders (Graversgaard, Cordovil, Nolasko, Medinets)
- Development tool has now been restructured and is being fine-tuned for each country.

Next Meetings

- In mid-July, we will continue with our individual country meetings.
- In late August, early Sept we will have a closed multi-hour workshop.
- In mid-October, we will have a two-day workshop that is open to anyone interested!
